Message from Programme Directors

Thank you for your interest in the Master of Science in Cardiology Programme. Cardiovascular disease is a major public health concern. The prevalence of cardiovascular disease is increasing in Hong Kong, affecting both old and young people. There is, therefore, a pressing need to train more health care professionals specializing in the care of cardiac patients. The Master of Science in Cardiology Programme was established for this purpose. Since 2008, our Programme has provided high quality training covering a broad spectrum of clinical cardiology to students from different healthcare sectors. We are pleased to have graduated hundreds of healthcare professionals from the Programme equipped with advanced knowledge and skills in the daily management of cardiac patients in diverse settings.

Our Programme aims to provide a comprehensive coverage in various aspects of clinical cardiology. Our students are from all walks of life including physicians, nurses, midwives, pharmacists, and other allied healthcare professionals.

Returning to the university campus, balancing between your professional and personal life will require a strong commitment and dedication. We welcome you to take the challenge and look forward to seeing you in the Master of Science in Cardiology Programme.

Professor Bryan PY YAN
Programme Director

Professor Alex PW LEE
Co Programme Director
